Ntegra™ Compact II

Banknote counter

The Ntegra Compact II is a highly reliable, small and portable banknote counting solution designed to specifically address your teller's banknote counting challenges. It will eliminate repetitive manual cash counting and authentication so your tellers can focus more on their customers. It fits the footprint of a traditional single pocket banknote counter, making it a space-saving, light and ergonomic solution for your busy tellers.

With superior banknote authentication and valuing, the dependable Ntegra Compact II enables continuous and un-interrupted note processing, whilst rejecting suspect and unwanted notes to a separate reject pocket.

Ntegra Compact II; superior authentication and valuing in a compact device

Ntegra Compact II is a small and portable banknote counting solution for your teller, when space is a primary consideration. Designed to fit the footprint of a traditional single pocket banknote counter, Ntegra Compact II is a space-saving, light and ergonomic solution for today's busy teller.

Whether it is in a front office application of a bank branch, or a cramped back office environment of a fast food restaurant or retailer, Ntegra Compact II is the new standard for banknote counting.

The Ntegra Compact II offers numerous development enhancements over traditional single pocket counters, offering continuous processing and low reject rates.

- Comparable footprint and size to single pocket banknote counters
- High-resolution full-width detection system ensures improved image detection and fewer false rejects
- A range of connectivity options allow greater operational flexibility, and more data storage options
- An intuitive graphical user interface that displays key operational data
- Dual-user operation for greater flexibility (optional)
